3rd Progress Report on Invest NI's Accelerating Entrepreneurship Strategy Equality Impact Assessment

July 2009

Section 75 of the Northern Ireland Act 1998

INTRODUCTION

Invest Northern Ireland (Invest NI) was established as a corporate body under the Industrial Development Act 2002 to work in partnership with the Department of Enterprise, Trade and Investment (DETI) to stimulate and encourage economic development in Northern Ireland.

Invest NI undertakes the activities previously delivered by the Industrial Development Board (IDB), the Local Enterprise Development Unit (LEDU), the Industrial Research and Technology Unit (IRTU), the Business Support Division of the Department of Enterprise, Trade and Investment and the business support functions of the Northern Ireland Tourist Board.

BACKGROUND

Invest NI has an Equality Scheme in place which sets out its commitment to the Section 75 Statutory Equality Duties and contains a timetable for undertaking a series of Equality Impact Assessments (EQIAs). The Equality Scheme was ratified by the Equality Commission for Northern Ireland on 19 November 2003.

In line with the EQIA timetable, Invest NI has carried out an EQIA of its Accelerating Entrepreneurship Policy during July 2005. The aim of this Policy is to:

- Create a culture and an environment through education and promotional campaigns that supports and encourages entrepreneurs;
- Segment businesses into three categories (global; export; local) based on the markets in which they will operate and the value added to the Northern Ireland economy;
- Develop clear support structures for each market segment and ensure the businesses can seamlessly progress from one segment to another;
- Use electronic media, to provide accessible world-class levels of support for entrepreneurs;
- Ensure support is provided in an integrated and effective way through a partnership of public, private and voluntary sectors.

The draft EQIA went out for a 12 week consultation period in July 2005. Following the close of this consultation a final report was published in May 2006. The final report outlined the actions/recommendations which Invest NI committed to take forward and to monitor on an annual basis. In July 2007 the first

annual progress report was completed with a subsequent report following on in July 2008.

CURRENT POSITION

Invest NI has now undertaken another review of the actions/recommendations contained in the final report and would like to highlight the progress made to date against each recommendation. The table below outlines progress made up to July 2009:

6	Ensure that the distribution of delivery agents for the Social Entrepreneurship Programme affords reasonable access for all communities across Northern Ireland.	The tender for the Social Entrepreneurship Programme included specific criteria around delivery mechanisms that afford reasonable access for all communities across NI.
7	Ensure that the criteria for the Social Entrepreneurship Programme in designated disadvantaged NTSN areas do not discriminate on grounds of race or religion.	The SEP is now operational and offers access regardless of race or religious background, within the criteria specific to the programme support mechanisms.
8	Ensure that the Prince's Trust and LiveWIRE programmes continue to monitor and reflect on the age ranges that they cater for and provide a sound rationale for their targeting procedures. Ensure that the Prince's Trust and LiveWIRE programmes consider any affirmative action and outreach measures that may be appropriate for equality of opportunity for under- represented groups.	Both PTNI and Advantage NI programmes continue to reflect the need for equality of opportunity for under- represented groups and contain measures to ensure that these groups are reached. This is captured and monitored on a regular basis.
9	Ensure that the auditing of each new Point of Presence in the Start A Business Programme is formalised to ensure that all buildings, locations and venues enjoy equal access for those with special needs.	The Points of Presence initiative continues to provide information at local level for individuals who are interested in Go For It and the Enterprise Development programme.

10	Make all materials for each programme available in alternative formats on request, and consider the marketing of the programmes (through Go For It) using alternatives to the written word.	A new Campaign and media plan was implemented after the official launch of the Small Business Support Programme on 19 March 2009. This campaign developed characters which addressed key barriers to entrepreneurship in NI. The Campaign continues to use alternative media channels to the written word including TV, Radio and a new website www.goforitni.com which is in line with government compliance requirements with it double A rating.
11	Format all AES application forms using clear fonts, layout and colours which are accessible to those with special needs.	All applications meet with corporate guidelines.
