

**NWRIC Northern Ireland Pitch Event**

Supporting Australian recycling infrastructure and reducing waste

**KIVERCO™**  
**RECYCLING PLANT**

Combining more than a quarter of a century of engineering know-how with the world's best-in-class technology brands, Kiverco design, engineer, and build a complete range of static recycling plants and modular equipment for all types of customers and various waste streams in the waste processing industry.

Kiverco has installed over 250 plants in the UK and continues to supply customers worldwide with installations in Europe, North America, the Middle East, and Australasia.
