Ireland

Northern Ireland. Transforming Lives through Science

Northern Ireland is home to more than 250 Life and Health Sciences companies providing innovative solutions to the world's healthcare challenges. The region is a prime location for business thanks to a unique combination of:

- Exceptional talent
- Competitive costs
- World-class research
- EU regulatory alignment
- IP protection
- Dual-market access to both the EU and UK

With strong links between industry, academia and clinicians, in the commercialisation of innovative research, Northern Ireland's Life and Health Sciences sector is focused on advancing pharmaceuticals, diagnostics, precision medicine, connected health, and medical devices.

Visit us at Arab Health Stand H2.D30 to meet with our companies and learn how Northern Ireland innovation can deliver solutions to your business.

Armstrong Medical

Armstrong Medical is a UK manufacturer of high quality innovative respiratory products for use in anaesthesia, critical and neonatal care. The company is supporting healthcare professionals to deliver optimum therapy as fast and continuously as possible and improve patient outcomes. Armstrong Medical is part of the Eakin Healthcare Group, and export to over 60 countries worldwide.
