

NORTHERN IRELAND

STATISTICAL BRIEFING

JULY 2025

INVEST NI SUPPORTED BUSINESS PERFORMANCE

2024

Client Performance Indicators (CPIs) are collected from a sub-set of Invest NI businesses who are significant contributors to the NI economy. CPIs are geographically assigned based on the HQ location of the business.

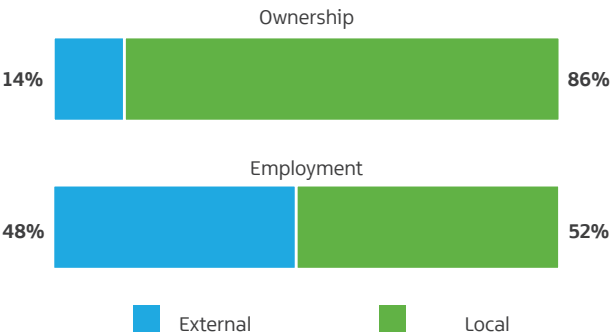

Key metrics include all sales, external sales outside NI, export sales outside UK and employment (based on Full-Time Equivalent). All data are provisional and subject to further revision.

Businesses are classified according to Invest NI's sector reporting structure which is based on their main product and/or service within Northern Ireland.

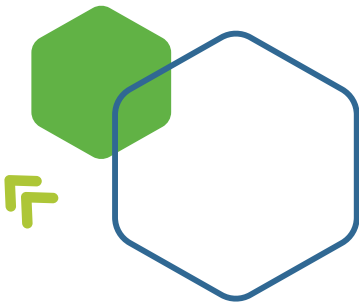

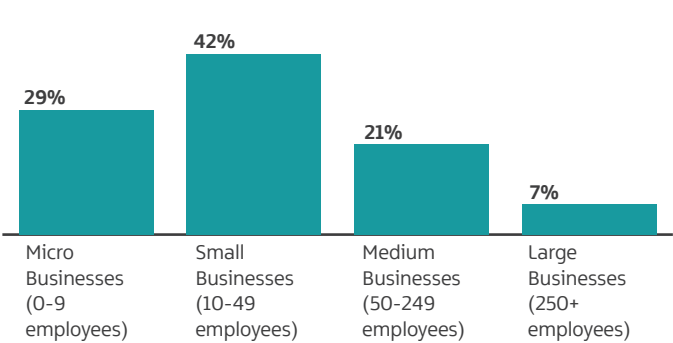

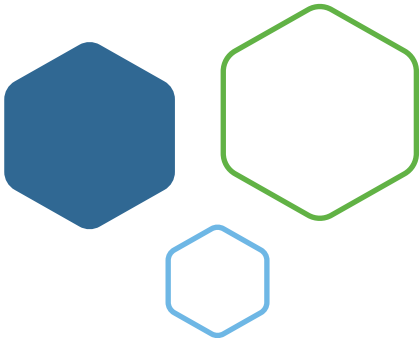

Whilst externally-owned businesses represent 14% of the total they account for 48% of employment

Business by ownership

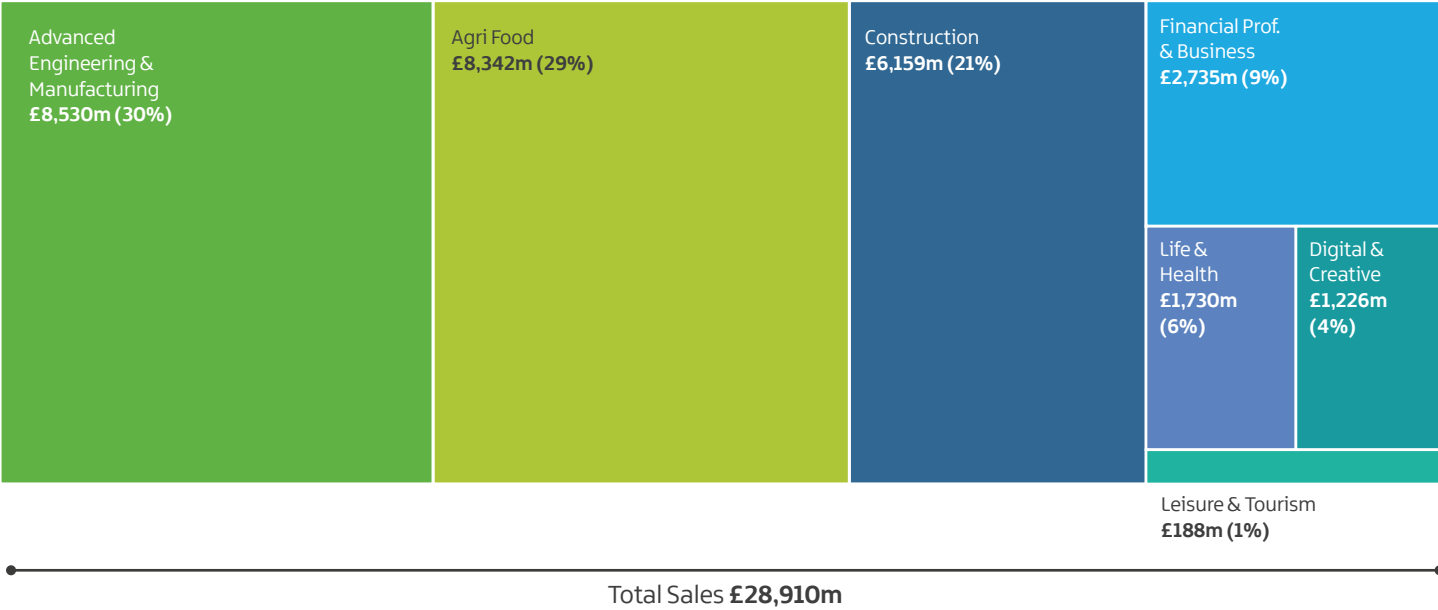

Businesses by size

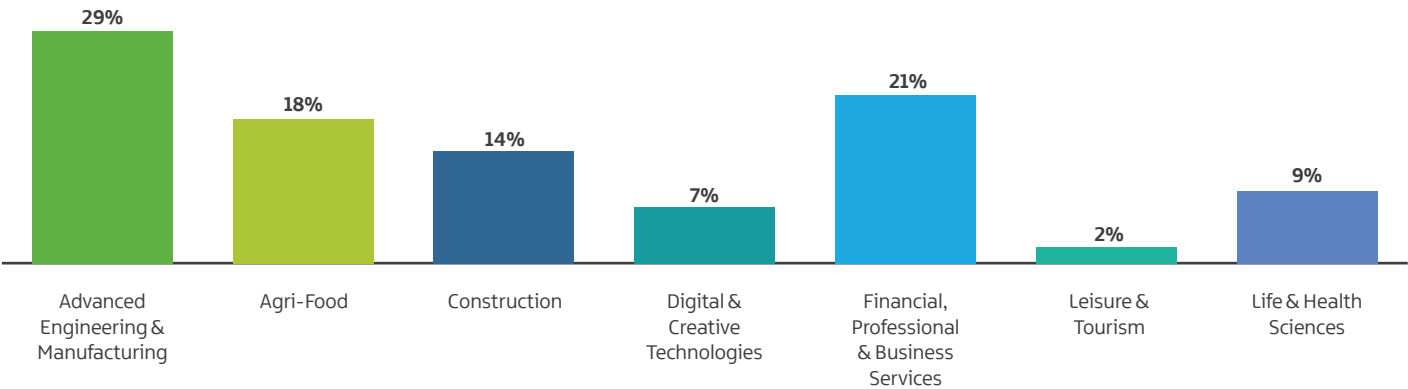

Sales by sector

Employment by sector

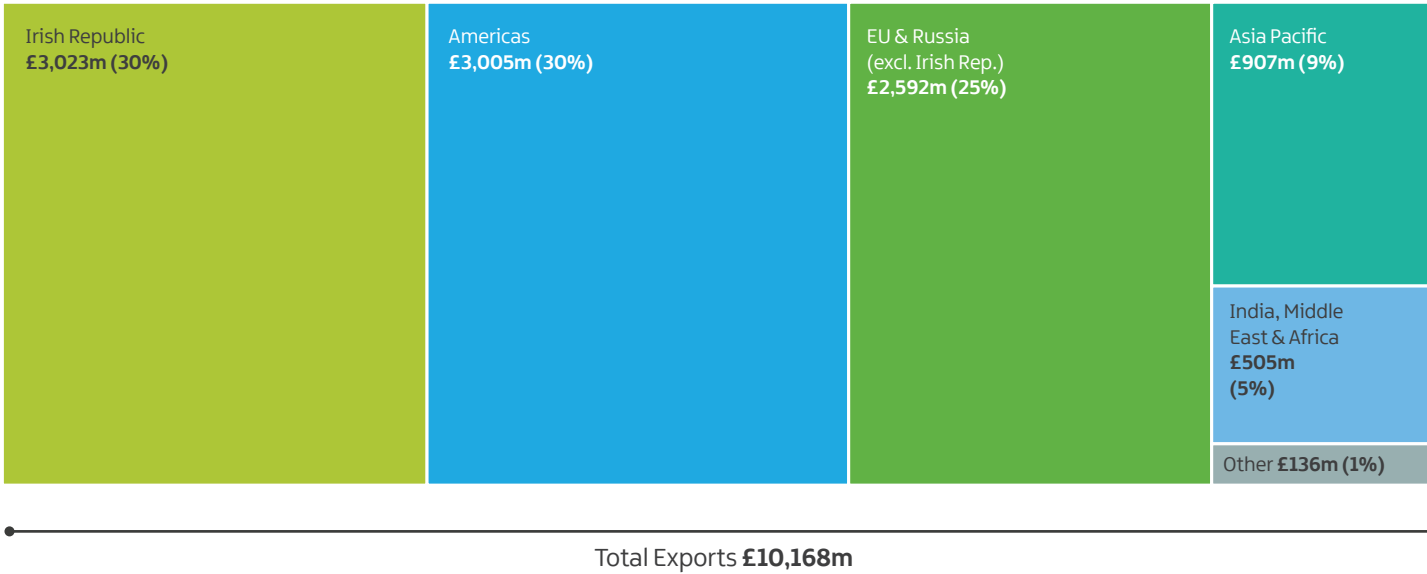

* Business count too small to release

Sales by destination

Note: Individual amounts may not add to the total figure due to an unassigned amount of £136m (0.5%)

Sales by trade territory

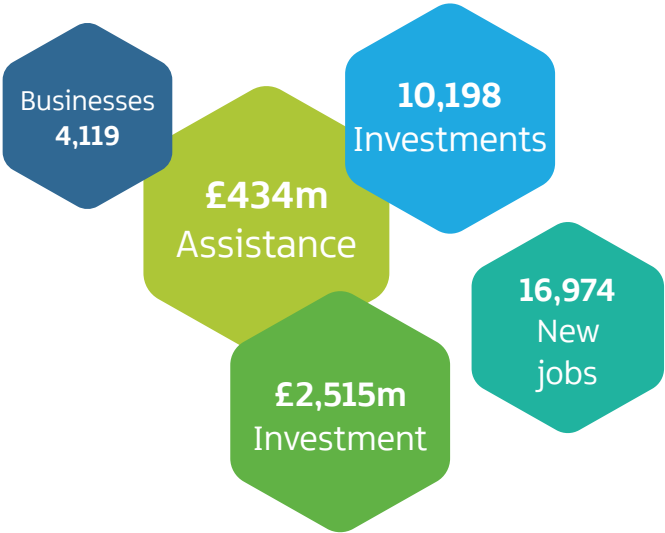

INVEST NI INVESTMENT ACTIVITY

2020-21 to 2024-25

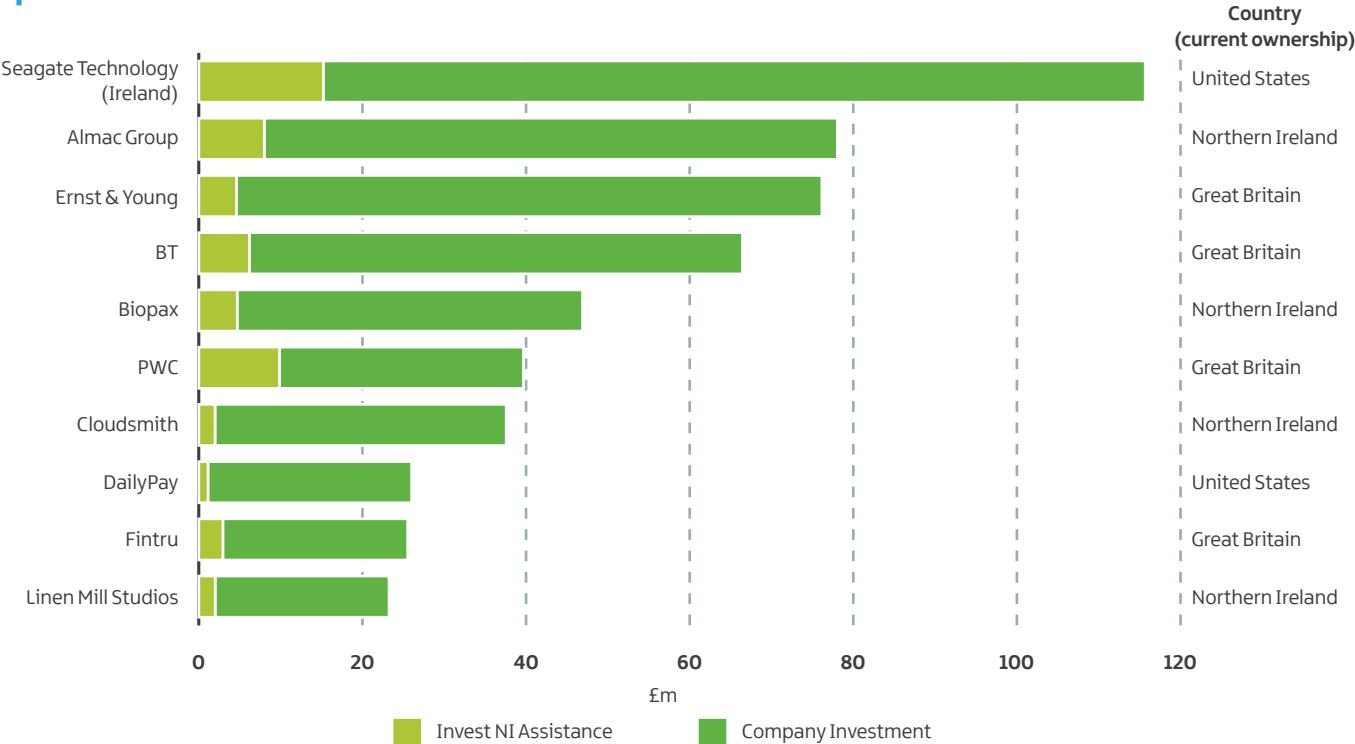

Investment activity covers projects (investments) that Invest NI has issued an offer of support for over the past 5 years.

When a business applies for support towards a development project (such as investing in R&D, creating jobs or building new facilities), we review their business plan to ensure it meets funding rules. If it does, we offer support (assistance) based on a percentage of the total project cost (investment) and the type of project.

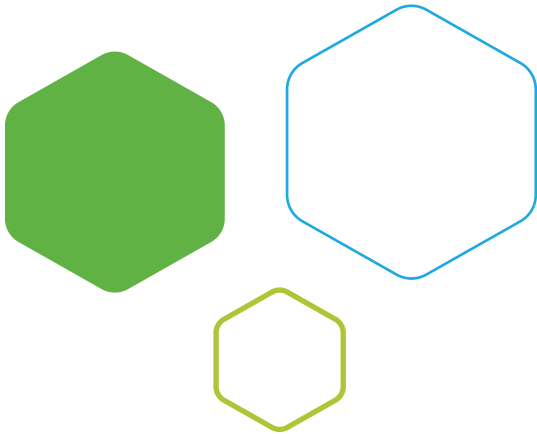

The offer is a contract that requires the company to deliver the project and provide us with specific evidence of progress against agreed milestones to be met over the project’s lifetime. Funding is only released when we receive this evidence. It is important to understand that there is usually a lag between when support (assistance) is offered and when the company delivers these milestones (investment), as projects take time to deliver.

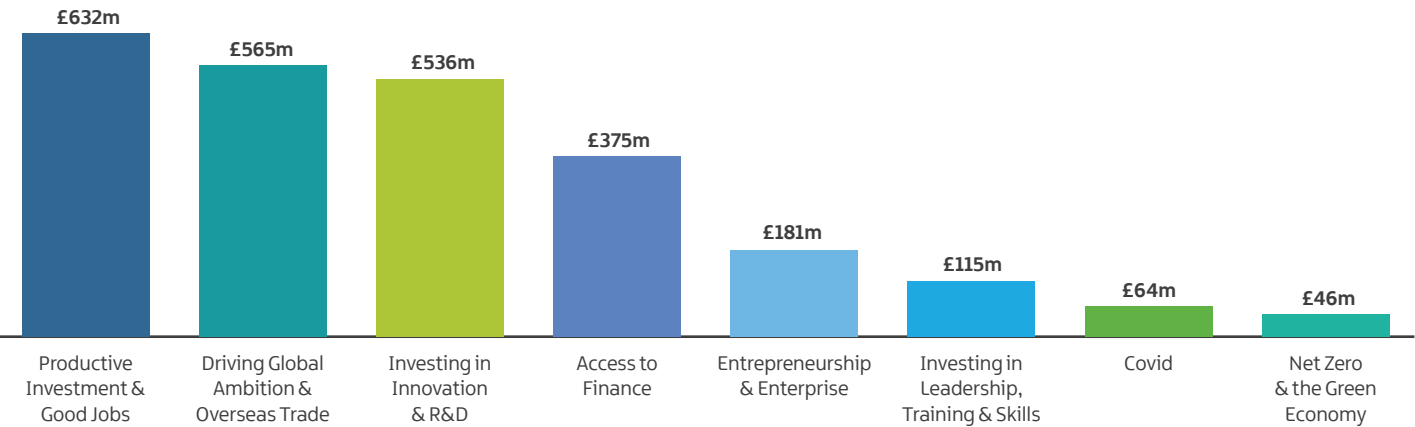

Top 10 investors

ECONOMIC PROFILE

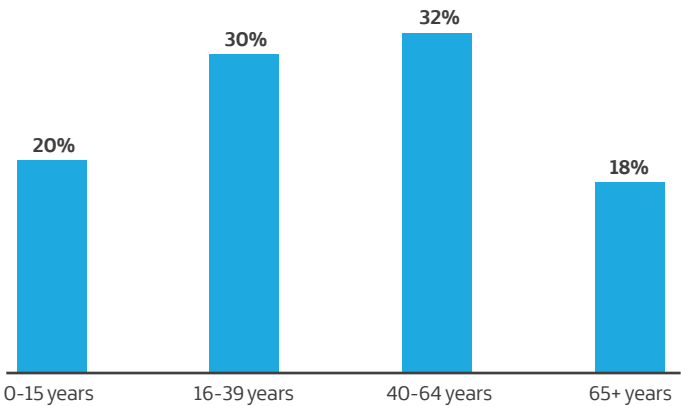

POPULATION 2022

Total population

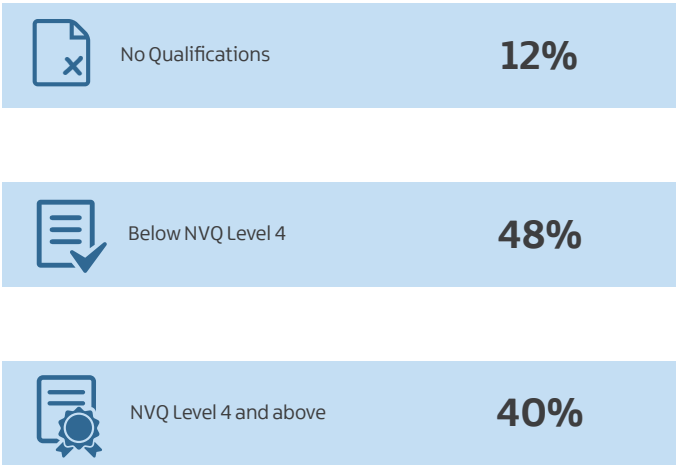

Source: Mid-Year Population Estimates, NISRA

Population by age

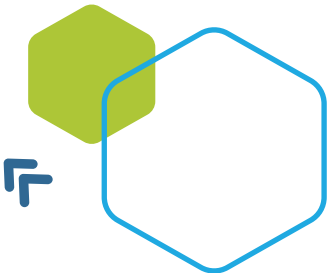

QUALIFICATIONS 2023

Source: Labour Force Survey, NISRA

These data are provided through the Labour Force Survey (LFS) which is a household survey and includes a measure of qualifications, based on the working-age population (16-64), using the following classification:

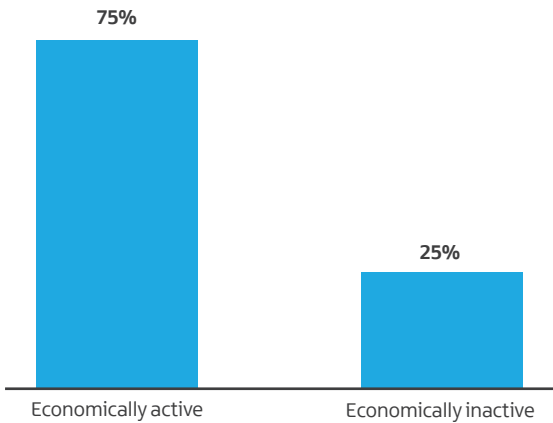

- No Qualifications
- Below NVQ Level 4 (Level 1 to Level 3)
- NVQ Level 4 and above (degree level and above)

LABOUR MARKET STRUCTURE

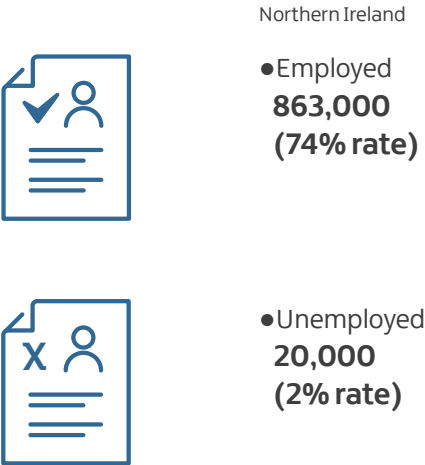

2023

Labour market

Economically active

UNEMPLOYMENT CLAIMANTS

2024

Northern Ireland

3%
of population claiming
unemployment benefit

Source: Claimant Count, NISRA

The labour market structure is composed of the economically active (people in employment and seeking work) and inactive (not seeking nor available for work). These data are provided through the Labour Force Survey (LFS), the largest regular household sample survey in Northern Ireland. **Total numbers in employment do not equate to total jobs as a person can have more than one job.**

Unemployment annual averages data is derived from the Claimant Count as LFS figures fall below suppression thresholds. This is an administrative data source based on the numbers claiming unemployment-related benefits. It uses a different definition of unemployment to the LFS.

Both measures of the labour market are based on the working-age (16-64) population.

The Business Register and Employment Survey is a business census which provides employee jobs estimates. **This is based on the location and number of jobs rather than the number of persons with a job; therefore someone with two jobs will be counted twice.** It excludes agriculture employee jobs and self-employed (not on a PAYE system).

BUSINESS DEMOGRAPHY

2023

Source: Inter Departmental Business Register, ONS

A business birth is identified as a business who was present in the active business population dataset for 2023, but not in the two previous years. A business is deemed to have survived for one year if having been a birth in 2022, it is active in terms of employment and/or turnover in any part of 2023. Rates are expressed as a percentage of total active businesses.

BUSINESS BASE

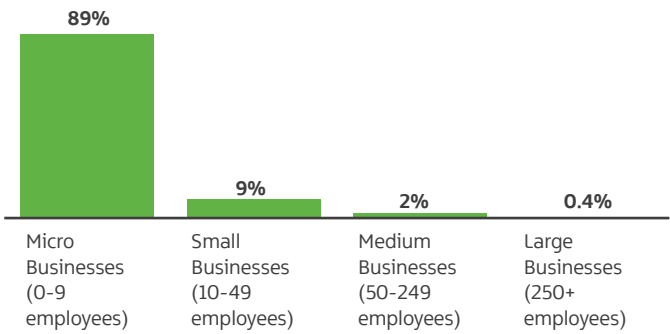

2024

Number of registered businesses

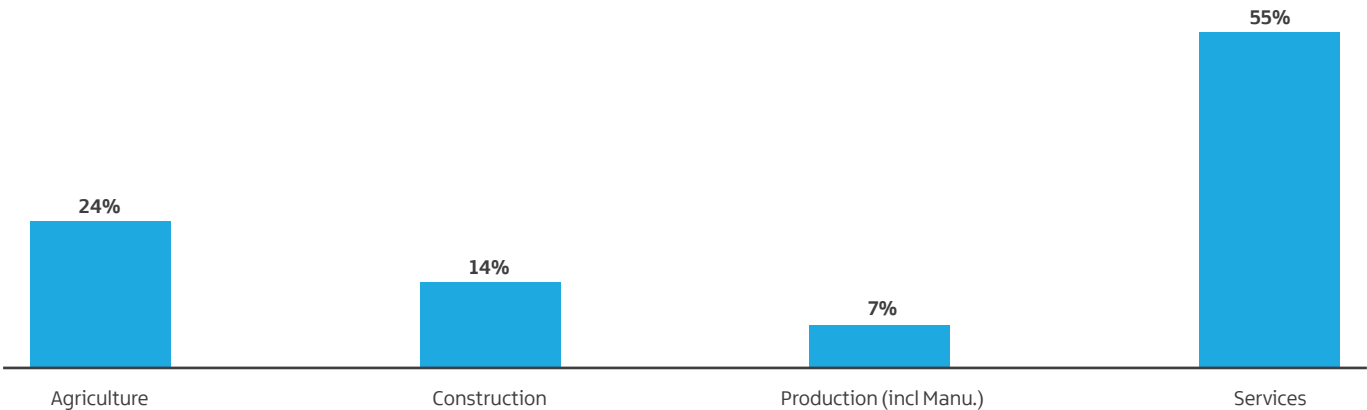

The business population is defined here by the Inter Departmental Business Register which excludes smaller businesses and the self-employed who fall below the VAT registered/PAYE thresholds.

Businesses by size

Businesses by sector

PRODUCTIVITY WORK-PLACE BASED 2022

Productivity is based on the Regional Gross Value Added (Balanced) in Current Prices (£). Regional GVA is the value generated by any unit engaged in the production of goods and services.

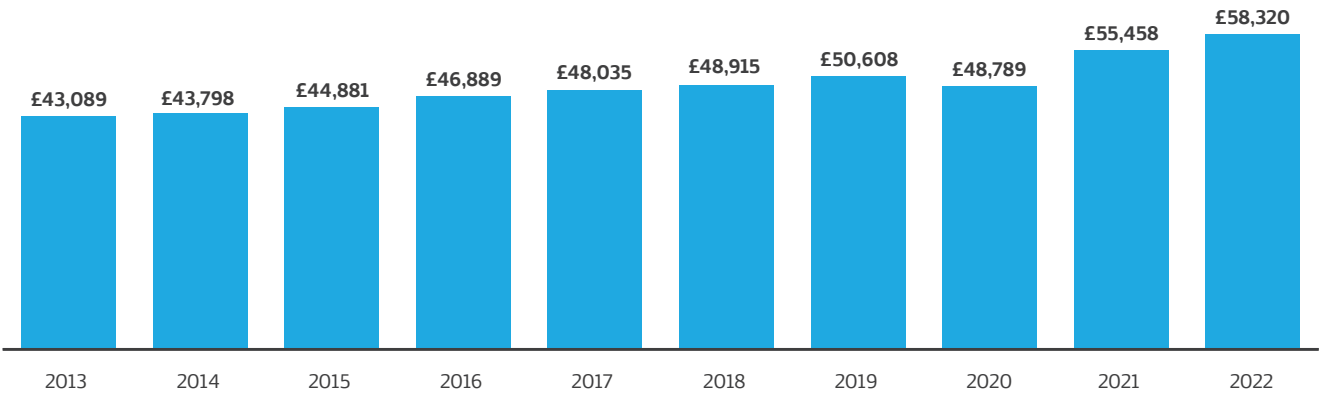

Per head calculations are made using jobs, rather than the resident population as this can be subject to distortion (due to the effects of commuting and variations in age distribution).

GVA per filled job 2022

Northern Ireland		
£48,915	£58,320	% change 2018-22

GROSS DOMESTIC PRODUCT

2022

GDP per head by council

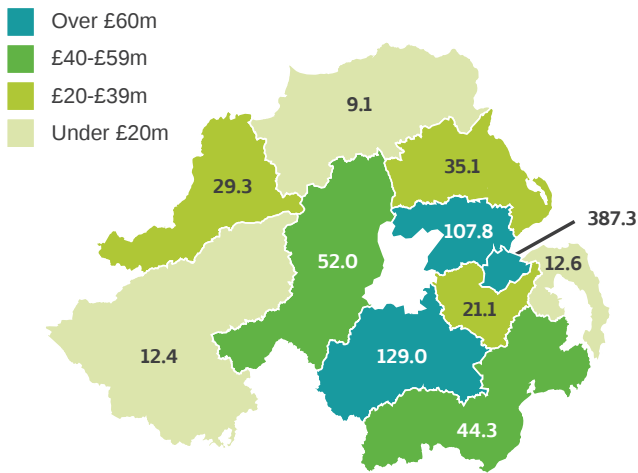

Gross domestic product (GDP) measures the value of goods and services produced in the UK. It estimates the size of and growth in the economy. Per head calculations are made using the resident population.

Source: Regional GDP, ONS

RESEARCH & DEVELOPMENT

2023

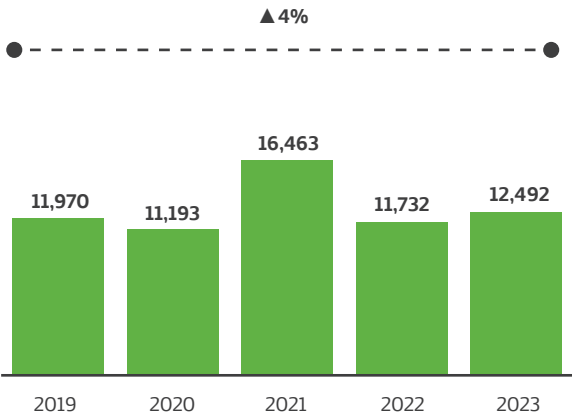

R&D activity is defined as research or technological development with an appreciable level of novelty or innovation in line with international criteria. The business expenditure on research and development (BERD) figures below are based on cash terms.

ENTREPRENEURSHIP

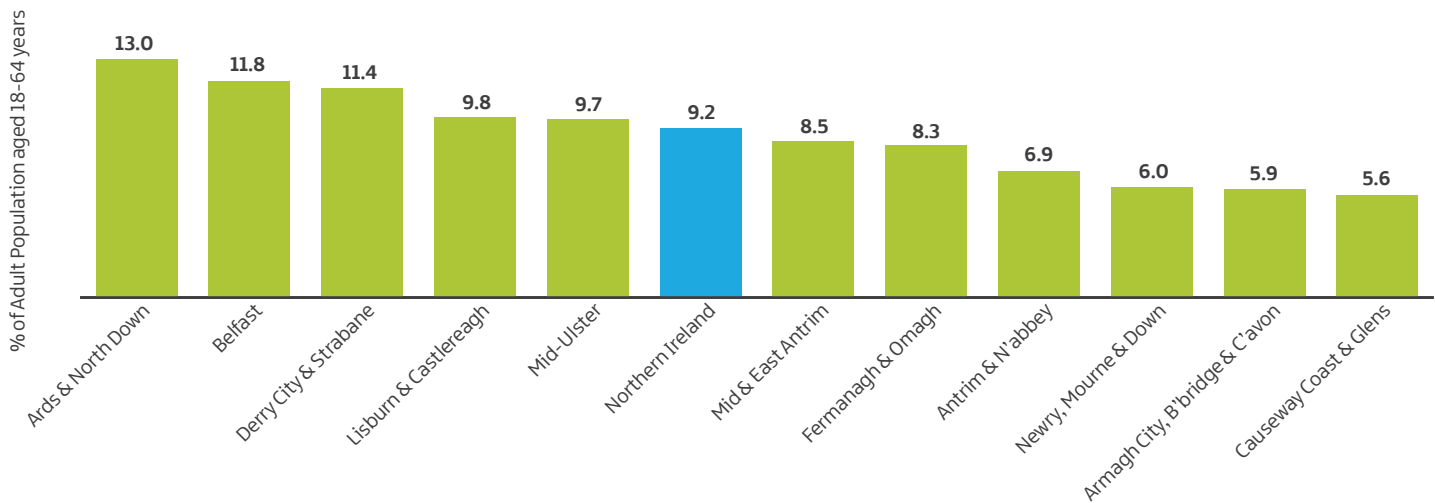

2023

Total Early-stage Entrepreneurial Activity (TEA) represents the percentage of the population aged 18-64 who are either nascent (in process of starting a business) or new entrepreneurs (running a business not older than 42 months).

Entrepreneurial activity is based on average TEA rates recorded over 2021-2023, which are grouped due to small sample sizes.

NI total assistance includes an additional £23.48m which is not allocated at council level, as it benefits businesses across the whole of NI, and a further £8.43m offered to remote working projects or to those that have not yet settled on a location.

Outside BMA figures include remote working projects that are not located in a specific council area but have the potential to impact on multiple locations throughout Northern Ireland.
