

# TENDERS ALERT SERVICE

# TENDERS ALERT SERVICE

Government bodies buy billions of pounds of goods and services annually. Our Tenders Alert Service enables companies to quickly identify United Kingdom (UK) and European **public sector** contract opportunities.

## What is the Tenders Alert Service?

The Tenders Alert service is an annual subscription service that emails companies daily to alert them to relevant opportunities.

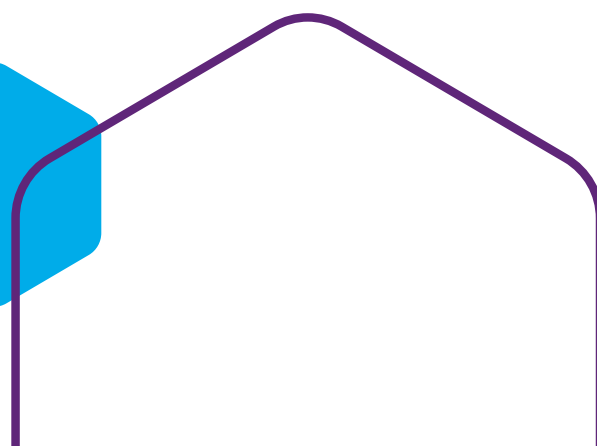

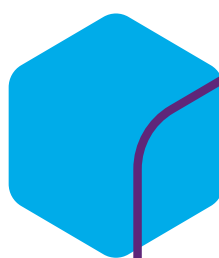

## How does the Tenders Alert Service work?

The service searches tender notices sourced from UK and European public sector websites, and emails details of relevant opportunities to subscribers daily. Businesses and opportunities are matched using an agreed search profile, which can be updated on request.

## Who can use the Tenders Alert Service?

The service is open to any Northern Ireland business that meets the following eligibility conditions:

- actively looking for opportunities outside Northern Ireland
- two years audited accounts (to be eligible to apply for the tenders published on the service)
- experience of the tendering process e.g. submitting tenders
- attended, or be willing to attend, InterTradeIreland's 'Tender Successfully' programme or a similar course

## What is the subscription fee?

The Tenders Alert service costs £100 plus VAT per annum, following a three-month free trial period.

## What are the opportunities?

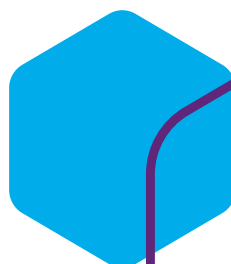

The service alerts companies to thousands of public sector tender opportunities annually. Contracts vary in value from £30,000 upwards and offer significant growth opportunities to businesses.

An example of the tender search results is shown below:

Title	Document Type	Summary	Published	Deadline
UK-Birmingham: Knowing Our Properties - Asset Management, Compliance & Component Accounting.	Contract notice	Midland Heart invites Contractors to tender for the procurement of an Asset Management, Compliance and Component Accounting System.	29.01.25	04.03.25
UK-PERTH: Cloud based large file collaboration, management and storage solution with user interface.	Contract award notice	Scottish Hydro Electric Transmission Plc. ("SHET"), seeks a market leading supplier of cloud-based file storage and collaboration solutions.	31.01.25	05.03.25

## Examples of the websites searched include:

- [Find a Tender](#)
- [Tenders Electronic Daily](#)
- [eTendersNI](#)
- [Public Tenders Ireland](#)
- [Public Contracts Scotland](#)
- [Sell 2 Wales](#)
- [Ministry of Defence](#)

## How to subscribe?

Email the team to discuss your needs: [tenders@investni.com](mailto:tenders@investni.com)

## Northern Ireland opportunities

If your business is not actively trying to sell outside Northern Ireland, but is still interested in winning new business locally, you can access local tendering opportunities at [eTendersNI](#) or [e Sourcing NI](#).

You can also visit [Department of Finance | Procurement](#) for more advice on tendering and opportunities.

## Other tendering support

We also provide information on:

- tendering training (for example InterTradeIreland's 'Tender Successfully' programme)
- upcoming procurement events (for example 'Meet the Buyer' events)
- where to find guidance on tendering procedures and UK and European Union public procurement regulations
